Subj: Constn of an overhead tank of 10,000 gallons capacity in Kunnigal town

From

The Dy C Tumkur Dist

No A6 C 293/48-49 Of 16-10-48,

forwards an estimate for Rs 7680/- for the above work and requests sanction to the same, as well as grant of half the cost from Govt and a loan to the Munty to meet the other half of the cost

1) In Kunnigal Town there is an overhead Steel tank of 4800 gallons Capacity The bore well is capable of supplying only about 1000 gallons per hour and that the water flowing into the tank is hardly sufficient to meet the demand of the town A deep well pumping set is installed in the Padmeshwara well to supplement the supply of water by the bore well by about another 800 gallons per hour

2) The Kunnigal Town Mpl Cl

Constn of an overhead tank of 10,000/-
gallons capacity in Kunnoth Town

2980/md

have at their meeting held on 29-6-68 resolved that the estimated cost of Rs 7680/- for the constn of a water tank (RCC) with a capacity of 10,000 gallons may be met equally by the Govt and the Mly. and the Govt to meet the Mly share of the cost, a loan of Rs 38240 may be granted by Govt Flag 2

3) The Govt state that the Mly have proposed to repay the loan out of the water tax collections They propose to extend the old tank also as there is the town is extending and the necessity for both the tanks

4) The estimate has been counter-signed by the President Kunnoth Mly

5) The Mly requests sanction to the estimate and for a grant of a loan of Rs 3840/-. But it is not mentioned whether the Mly are ready to pay the usual rate of interest charged to the local bodies

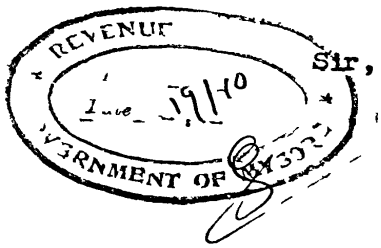
No.A6-C 293/48-49. Office of the Deputy Commissioner,
Tumkur District,
Dated, Tumkur, the 16th October 1948.

To

Janab Syed Abdul Aleem, B.A.,
Secretary to Government of Mysore,
Revenue Department, Bangalore.



Sir,

Construction of an overhead tank of 10,000 - gallons in Kunigal Town

In forwarding herewith the correspondence ending with letter No HC.1/48-49 dated 27/9/48, from the President, Town Municipal council, Kunigal, on the above subject, I write to state that the Sanitary Engineer, Bureau of Sanitary Engineering Bangalore, has forwarded an estimate for Rs. 7680/- with a report for the work in question at the request of the President It is seen from the report of the Sanitary Engineer, that the existing over head tank, the capacity of which is 4800 gallons will be emptied within about an hour when the supply to the Town is given, that it is not possible to fill up this tank again since the bore well is capable of supplying only about 1000 - gallons per hour, that the water flowing into the tank is hardly sufficient to meet the demand of the town It will also be seen that result of this it was not possible to store water in the tank and that, therefore, the Padmeswara well nearby was provided with a deep well pumping set, thus supplementing the supply to the bore well by about another 800 gallons per hour

The Municipal council have, at their meeting held on 29/6/48 resolved that the Government be requested to accord sanction for the construction of a water tank with a capacity of 10000 gallons at an estimated cost of Rs. 7680/-, the expenditure being met both by Government and the Municipality in equal proportions and have also prayed for a loan of Rs. 3840/- to meet the Municipal share of cost as there are no sufficient funds in the Municipality

The

The President states that the loan amount will be paid out of the collections of water-tax for which draft bye-laws have been submitted and that the existing steel tank will be retained in addition to the R.C.C. tank proposed, for further use in view of the fact that the town has extended considerably and that there is need for both the tanks

Government have, in their order No. L.16639-41/Ml.43-47-31 dated 7.5.48, accorded sanction to the estimate of Rs. 3000/- for sinking an additional bore-well in Kunigal Town, the expenditure being met both by Government and the Municipality in equal proportions and the amount has been deposited by the Municipality The Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, has been requested to give preference to this work

The water supply Bye-laws prepared by the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore have been submitted to Government for approval in this office letter No A6-C.945/48-49 dated 25 9 1948

In these circumstances, I request that sanction of Government may kindly be accorded for the construction of an over head tank at an estimated cost of Rs 7680/-, the expenditure being met both by Government and the Municipality in equal proportions and also kindly to sanction a loan of Rs 3840/- to the Municipality to meet the Municipal share of cost as resolved by the Municipal council.

Yours faithfully,

for Deputy Commissioner,
Tumkur District

---

Ref Construction of an additional R C C Tank of 10000 Gallons in Kunigal Town and grant of a loan of Rs 3840/-

--

With reference to your memo No A 6 C 293/ dated 24-11-1948 on the above subject, I beg to enclose herewith for your kind perusal a copy of the resolution of the council meeting held on 31-12-1948 and to state as follows -

The letter under reference was discussed by the Council when it was resolved to request the Govt to grant a loan for the above purpose repayable in 10 annual instalments at 4½ per cent interest per annum The loan will be repaid as resolved out of the realisations that could accrue from the levy of water rate by giving tap connections to houses from which an income of Rs 2000/- per annum is anticipated and the council are hopeful that they would be able to pay off the loan amount without much difficulty and without prejudice to any other work or amenities the council have undertaken to provide to the town

The balance of loan amounts as per loan register viz Rs 1440/- for the I loan and Rs 1632/5/8 for the II loan as sanctioned in C O L 49557dated 4-1-1938(Rs 8000) for the improvement of the water works, Kunigal have been adjusted to the Treasury on 10-2-1949 Certified challan in token of adjustment of the amount is enclosed herewith for kind perusal

A sum of Rs 1500/- for sinking an additional bore well in the town and Rs 1382/8 towards the I stage drainage scheme have been sanctioned as grants during 1947 48 from 1946-47 to this Municipality

In view of the inadequacy of supply of water due to low pressure from the existing over head tank of 4800 gallons, I request that Govt may kindly be recommended to grant a loan of Rs 3840/- at 4½ per cent interest and a grant of Rs 3840/- to enable the council to take up the work as resolved by the council

PTO

Council The total estimated cost of the work is Rs 7680/-

Early orders are solicited

Kunigal, Dated 12th Apr 1949

To,

The Secretary
To Govt of Mysore,
General Department
Bangalore

Sir,

Ref — Construction of an overhead tank of 10 000 gallons in Kunigal Town

With reference to your memo no L 11403 dated 6/4/49 stating that since the financial position of the council is sound, the amount of loan prayed for may as well be met out of the closing balance, I beg to state that the matter was discussed by the council meeting held on 10/4/49 when it was resolved to meet 1/2 the cost of the R C C tank amounting to Rs 3840/- out of the closing balance of the Municipality instead of the loan from Govt as already resolved

I, therefore, request that sanction may kindly be accorded to the resolution of the council to meet Rs 3840/- out of the closing balance A copy of the resolution of the council is enclosed herewith for kind perusal The C B of cash in the treasury belonging to the municipality on 1/4/49 was Rs 19,032-8-2
